# What is TheraForm™ ?

TheraForm™ Absorbable Atelocollagen Membrane is a sterile, pliable surgical porous scaffold agent made of highly purified type I atelocollagen derived from porcine skin. TheraForm™ shows minimal antigen reaction due to the elimination of telopeptides which is known that antigenicity is located. TheraForm™ is completely absorbable, highly bio-compatible and suitable for reconstruction of soft tissue.

## Main advantages

- No risk for BSE • Accelerate wound healing proces • Provide matrix for tissue ingrowths
- Can be cut to fit ant size wound • Soft and conformable to wound site • Maintain integrity moist state
- Leaves wound free of fiber • Control bleeding and stabilize blood clots • Appropriate for a wide range of wound

## Specification

PRODUCT NAME	PRODUCT SIZE	QUANTITY	
TheraForm™ Standard Type	30 X 40 X 5	1	
	50 X 70 X 5	1	
	100 X 100 X 5	1	
TheraForm™ Sheet Type	30 X 40 X 0.5	1	
	50 X 70 X 0.5	1	
	100 X 100 X 0.5	1	
TheraForm™ Bilayer Type	30 X 40 X 1	1	
	50 X 70 X 1	1	
	100 X 100 X 1	1	
TheraForm™ Dental Type	ø 8 X 25	1
